

Friends of Poulton and Pulford Community Park

5th Feb 2021

Hi Everyone,

As it's not really been possible to have a meeting for quite a while, Simon and I thought it would be useful to update you on some of the plans which are moving forward.

1. The diseased logs have been removed by a small group of people.
2. The application for the section 106 money from the Lyndale Farm has been submitted.
3. The sum of £500 from Chester Council given at the discretion of Councillor Mark Williams has been gratefully accepted and banked.
4. The proposed tegular paved area in front of the main gate entrance has been organised by David Roberts (as requested by the Friends). It will be undertaken by Tim in the spring.
5. Following the circulated fitness equipment information, the following items have been tentatively selected:-
 - a Leg Stretch/Bar Push Ups
 - b Body Raise/Reverse Pull Ups
 - c 2.3 Multi Exercise Bench
 - d Parallel Bars
 - e Chin Ups
 - f 2.6 Horizontal Ladder
 - g Signage (7)

Reps from the firm hopefully will come prior to formal order/delivery to walk the site with us to discuss sitings and suitability of equipment. This exciting addition to the park will be called The Captain Tom Fitness Trail.

The bulbs in the park are coming through nicely. Simon has designed posters to advertise the amenities in the park and the proposed changes.

Keep well and cheerful everyone.

Kate
